
DirectX9.43.dll missing: ERROR_DLL_NOT_FOUND When I try to start a game and get the message "DirectX9.43.dll is missing". I am in Windows 8.1 x64. I am trying to get it to work on the PC of my friend but his... Aug 17, 2020 The solution is a very simple one, and you probably already knew. It is to simply reinstall the original game from the store (with another account, if needed), since the app will download most of the other DLC to your profile's 'My Games' folder. Just be sure to create a new folder for it to be downloaded to after you've finished installing the game, so you can overwrite the original "My Games" folder. Good news, gamers!
